- 2) Module 2: Development Standards (March)
- 3) Module 3: Administration & Procedure (Late spring/summer)  
Once approved by Council it will become local law by late summer 2017.

Q. What was not working well and what are we trying to get to?

A. Interaction with ordinance is currently not user friendly, text heavy, piecemealed and difficult to process.

Q. Will existing properties come in conflict with new zoning?

A. Mostly no, residential areas are well protected. The New Zoning will not be retroactive; things that are not consistent with new ordinance will not have to conform unless there are changes made to the property/structure.
